

GREEN LAB PRACTICES

Pipette Box Recycling

Recycle your empty pipette tip boxes through Pitt's partnership with Polycarbin. Place the components of the tip box in the designated Polycarbin collection bin (tip boxes do not need to be assembled). All tip box brands are accepted.

This program is for recycling *empty pipette tip boxes only*. Placement of pipette tips or any other lab waste could result in the entire batch not being recycled.

Accepted Materials

- Pipette tip box (*any brand*)
- Pipette tip box rack
- Refill wafer
- Box lids (*do not have to be attached*)

Not Accepted

- Pipette tips
- Cardboard
- Plastic wrap
- Gloves
- Hazardous waste
